Practices: Responsive web design, web accessibility, cross-browser compatibility, performance optimization, Agile/Scrum, code review, UI/UX, wireframing, technical SEO

Marketing and Analytics: Google Analytics 4 (GA4), Google Search Console, Google Tag Manager, Semrush, Microsoft Clarity, local SEO, Mailchimp, social media management

Design: Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Canva

PROFESSIONAL EXPERIENCE

Founder and Lead Web Developer | BrandView Inc. | Houston, TX | Nov 2018 – Present

- Founded and run a web development agency delivering WordPress websites, WooCommerce stores, managed hosting, SEO, and social media for 45+ small business, healthcare, and nonprofit clients.
- Build custom WordPress themes (classic and block themes), React-based Gutenberg blocks, custom plugins, and must-use plugins with PHP, JavaScript, ACF, and the WordPress REST API.
- Developed WooCommerce stores with Stripe payments, Square inventory sync, and Printful fulfillment; built a custom Fabric.js product designer that exports 300-dpi print files.
- Administer cPanel/WHM and VPS hosting for up to 57 client accounts, including site migrations, DNS, SSL, email, backups, and security hardening.
- Increased a wellness client's local search visibility from 13% to 76% through a website rebuild and local SEO program.
- Manage website, SEO, and social media for Houston Recovery Center, a nonprofit, including a campaign microsite, video pages, and impact reports; the social program reached 112K impressions and 45K users.
- Serve as white-label development partner to Method 21: co-developed an offline React Native/Expo parts-lookup app with 8,093+ part crossovers for an industrial distributor, cutting the image payload 86% (700 MB to 100 MB).
- Delivered partner builds for Gulf Winds International (container calculators and fuel-surcharge charts from the U.S. EIA API), SonALAsense (biotech site launch), the City of Houston's Houston I Am Life campaign, and a Divi 5 rebuild for TSC Drill Pipe.

Software Development Engineer II (Contract) | Yahoo (via Createch) | Remote | Nov 2021 – Jan 2024

- Developed high-performance, accessible, cross-browser HTML5 display ads using JavaScript, HTML5, CSS3, and Node.js build tooling.
- Shipped features frequently in an Agile environment with software engineers, architects, and back-end engineers.
- Wrote tests, took part in code reviews, and built reusable components and libraries to speed up future ad builds.

Front-End Developer | Valtech | Remote | Jul 2022 – May 2023

- Built valid, standards-based HTML/CSS templates and worked with the back-end team to integrate them into enterprise content management systems.
- Maintained and extended client websites by adding features, creating display templates, fixing bugs, and debugging cross-browser issues.
- Reviewed wireframes and mockups before development and resolved QA feedback from design, technical, and account teams.

Front-End Developer | Method 21 | Houston, TX | Nov 2013 – Nov 2018

- Lead front-end and WordPress developer for a Houston digital agency. Delivered white-label builds for agencies including Argus (San Francisco), Field of Study, Gilbreath Communications, and SO Creatives.
- Built the City of Houston's Ready Houston emergency-preparedness website: a custom WordPress theme with searchable, filterable city data and an Office of Emergency Management database.
- Developed corporate websites for Berkeley Lights (Lever careers API integration), Desert Silicon, and GTC Technology, plus four years of annual-report websites for BRIDGE Housing.
- Led Mental Health Gateway from concept to launch on WordPress, with an events calendar, paid registration through WooCommerce, and support-group filtering.
- Built a hybrid iOS/Android app and WordPress site for BasinTek, an oil and gas manufacturer, using AngularJS, Ionic, Cordova, and Chart.js. It turned engineering test data into real-time performance charts and PDF spec sheets for sales teams and rig operators.
- Launched an e-commerce store, SEO, and PPC landing pages for Diamond Technical Surveys, which brought in the client's first online sale. Built MODX and WordPress sites for Axiom Medical and the University of Houston's Gulf Coast journal.

Web Developer (Freelance) | Self-Employed | Houston, TX | Jul 2013 – Nov 2013

- Designed and built WordPress websites, email marketing campaigns, and print collateral for a PR agency, a youth nonprofit, and a chamber of commerce.

E-Commerce Sales Coordinator | Mattress Firm | Houston, TX | Nov 2008 – Jul 2013

- Managed online sales and order coordination for MattressFirm.com, scheduling deliveries and resolving customer issues.
